Technologies:

 Symfony  PHP  MySQL  Javascript  Jquery  React  Redux  Bootstrap
 CSS  React Native  Firebase  Git  Docker

Main Skills

I am passionate about web development and in particular the frontend. Am not limited to a technology, a framework or libraries, each solution has its own context and a specific usage case. But if you ask me what I like most, I would say Typescript/Javascript and React Ecosystem.

Education

Bachelor's degree, Information systems and software engineering
University of Algiers 1, (Algiers, Algeria)
2015 - 2018
